Guiding Eyes for the Blind
Youth Group Code of Conduct

We want you to have a great time as you learn about our facility but it is important that you follow these simple rules:

Please use your inside voices at all times.
We need to maintain a calm environment for our future potential guide dogs.

Please remain behind the tour guides when walking through the facility.
For the safety of all, do not run ahead of your tour guide and listen carefully for instructions and information.

Please do not pet any of the animals you see before, during or after the tour.
There will be plenty of time to pet the animals under the supervision of a tour guide.

Wear appropriate enclosed footwear.
Sneakers and boots are fine but please no flip flops or sandals. Wheelies are not allowed.

Please turn off cell phones during the tour.
Out of respect for our tour guides, staff and other guests please refrain from using your cell phone during the tour.

We encourage you to ask questions.
Please wait until the tour guide designates an appropriate time for your questions.

Please no children under the age of 6.
The tour is not appropriate or safe for children younger than six.

Chaperones, please lead by example.
We kindly ask adult chaperones to provide assistance to the tour guide if necessary in controlling the tour group.

Failure to follow instructions will force the tour to be ended prematurely.

Because of space issues and a concern for our animals, we must limit the size of our tours to troop members, leaders and chaperones only. Therefore, other family members, friends, neighbors, etc may not join you on your tour.

Please sign below and bring with you to hand in to your tour guide prior to your tour.

I have read and understand these rules: __________________________________________
