OUR MISSION
Guiding Eyes for the Blind provides guide dogs to people with vision loss. We are passionate about connecting exceptional dogs with individuals for greater independence.

Guiding Eyes is a 501(c)(3) nonprofit organization with all services provided completely free of charge. At Guiding Eyes, we rely upon the contributions of our generous donors to fulfill our mission.

We work out of our Headquarters and Training Center in Yorktown Heights, New York, and our Canine Development Center in Patterson, New York.

Guiding Eyes is an accredited member of the International Guide Dog Federation (IGDF), the organization that establishes worldwide standards for the breeding and training of guide dogs.

BY THE NUMBERS
One guide dog team costs approximately $50,000 to breed, raise, train, match, and support over the lifetime of the team’s work together. Here’s a look at some of the facts and figures that make it all possible:

- More than 60 years experience (we were founded in 1954 by Donald Kauth)
- More than 500 pups born annually
- 92% Labrador retrievers, 8% German Shepherds
- More than 7,000 graduated guide dog teams
- More than 1,000 active guide dog teams
- 170 guide dogs placed annually
- More than 1,400 volunteers

FUNDRAISING
All of our services are provided free of charge to people who are blind or visually impaired. Guiding Eyes receives little to no government funding. Our support comes almost entirely from individuals, corporations, and foundations.

There are many ways to designate gifts to specific areas of our work at Guiding Eyes:

$500
Sponsor a monthly graduation ceremony

$1,000 - $2,500
Purchase a “Paw” on the “Paws of Fame” Donor Wall

$5,000
Special-name a puppy

$10,000
Sponsor the training of a specific guide dog

$50,000
Lifetime support of a guide dog team
At the Canine Development Center, established in 1966, we “purpose breed” Guiding Eyes dogs for the health and temperament suited for guide work. More than half of the puppies raised become guide dogs, service dogs, or join our breeding program.

Puppy Raising
Volunteer puppy raisers take pups into their homes at approximately eight weeks old and teach them basic obedience and house manners while socializing them to everything the world has to offer! Puppy raisers return the dogs at 16-18 months old and our senior breeding and training staff determine whether the pups are ready for guide dog training or more suited for another career.

- Potential raisers attend orientation sessions to learn the skills they’ll need to start training puppies. They also have the chance to “puppy sit” as a trial experience.
- Raisers attend training classes throughout the time they have their pups.
- Guiding Eyes pays for all of the puppy’s veterinary expenses and provides a crate and collar.

Brood & Stud Fostering
Volunteer fosters provide permanent homes for Guiding Eyes brood and stud dogs. These volunteers provide a safe and loving home environment, keeping the dog on leash when outdoors, and ensuring daily exercise. Like puppy raisers, brood and stud fosters receive training in dog handling, care, and obedience, as well as regular check-ups from our veterinary staff.

Home & Early Socialization
Home socializers bring two puppies (age six to nine weeks) to their home for three to five days to expose them to new sights, sounds, and people, with training and equipment provided by Guiding Eyes.

Other Volunteer Opportunities
Guiding Eyes offers a range of volunteer opportunities at home or on campus. On-campus volunteers must be at least 18 years old, and youth under 18 can participate in most off-site opportunities with the support of their families. For the most up-to-date information on these opportunities, visit www.GuidingEyes.org.

SUCCESSIVE TRAINING & ENRICHMENT PROGRAM (STEP)

Guiding Eyes has a proprietary, relationship-based approach to raising and training our pups, using positive rewards to build a spirit of cooperation and willingness. Dogs raised through this program display significantly increased confidence and focus.
GUIDE DOG TRAINING

Our guide dogs spend six to 12 months undergoing formal training with a professional instructor. They learn the skills needed to safely guide a person with vision loss, such as indicating changes of elevation and navigating around obstacles.

Did you know?

- Each guide dog is carefully matched with his or her handler based on pace, pull, personality, and other critical factors.
- Guide dogs do not know how to cross the street. Their handlers listen to traffic sounds and determine when it's safe.
- Guide dogs are taught “intelligent disobedience” and will ignore the command to move forward if a car or other dangerous object is in their path.

RELEASED DOGS

Guiding Eyes spends months getting to know our puppies and dogs, to make sure they’re suited for guide work. Just like people, dogs have different personalities and want different careers. (And for some, that means a career as a pet!)

Dogs that aren’t suitable for guide or other service work are released from our program and placed in loving homes through public adoption. The wait for a Guiding Eyes release puppy or dog ranges from one to four years.
Guiding Eyes for the Blind is proud to offer a variety of programs, so our students can receive the training that best suits their needs.

**Residential Training**
Students spend three weeks at our Yorktown Heights campus to learn how to care for and travel safely with their new guide dogs.

**Specialized Training Program**
Designed to help students who, in addition to blindness or visual impairment, have other physical or developmental challenges such as hearing loss, cerebral palsy, multiple sclerosis, or muscular dystrophy.

**Running Guides**
Guiding Eyes is the only guide dog school to offer Running Guides, training dogs to run alongside their handlers to eliminate the need to rely on a sighted running partner.

**Home Training**
This program takes our dogs and training staff to the home of students who cannot attend the Residential Program.

**Accelerated Client Training Option (ACTION)**
An abbreviated program designed for experienced guide dog users.

**GRADUATION**
Monthly graduation ceremonies are the culmination of training for our guide dog teams. They are an opportunity for puppy raisers to meet their dogs’ new handlers and for all volunteers, donors, and supporters to share in the celebration of new independence.

Graduation ceremonies are open to the public and held Saturdays at our Yorktown Heights campus. Head to www.GuidingEyes.org for details.
